# WHO WE ARE

We are Mayurlin and Yerfran, a team of two dedicated to photography and film production for luxury and boutique hotels.

Mayurlin leads photography and creative direction. Yerfran leads film production, from the shoot to the final edit. Together we capture the spaces, the service and the guest experience.

We have worked with more than 35 properties across five countries, from Marriott International and IHG hotels to independent boutique collections.

## WHY MAYU TRAVEL

No intermediaries. The two people you see here are the two who arrive at your hotel.

Spaces with people in them. We show the stay, not just the room. That is what makes someone book.

A hotel in full operation. We shoot without disrupting the service or the guests.

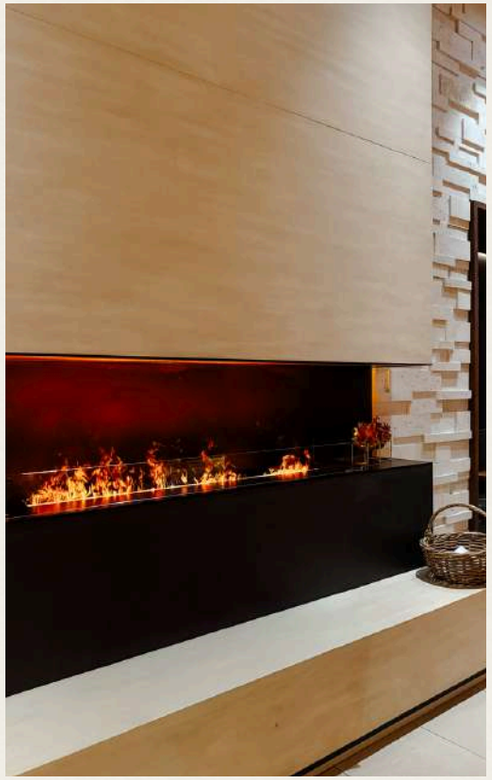

They call us back. Four hotels have booked us again. GPRO Valparaíso, three times.

WAYS TO WORK TOGETHER

# Each hotel chooses what it needs.

| | | |
|---|---|---|
| 01 | Content production | Photography and film for the hotel's website, social media and campaigns, with agreed usage. |
| 02 | Social media exposure | Reels, posts and stories on @mayurlintravel, in front of an international travel community. |
| 03 | Production and exposure | Both in a single shoot: content for the hotel and posts on our account. |

## Every proposal is tailored

From a few vertical pieces to a full production over several days.

We shape it with you, based on what you want to tell (a story, something more lifestyle or more organic), where the content will be used and how long we spend at the property.
